## Product Designer / Product Manager

### Experience

#### Returning.AI

Unified Loyalty Platform

#### Product Designer SEPT 2025 - PRESENT

- **Lead end-to-end product design** for a multi-tenant loyalty platform, translating client needs, user insights, and complex business rules into scalable administrator and member experiences across Store, widgets, permissions, integrations, and gamification.
- **Partner with leadership and engineering** on product direction and delivery - framing problems, prioritising opportunities, writing PRDs and acceptance criteria, managing scope and dependencies, and driving features from discovery through QA and release.
- **Use AI throughout product development** to synthesise research, explore concepts, produce structured specifications, accelerate prototyping and frontend implementation, and build reusable workflows for design-to-development handoff.
- **Maintain the design system and Storybook-led workflow** while validating accessibility, responsive behaviour, edge cases, and state consistency; mentor a UI/UX intern and coordinate cross-functional delivery.

#### UX/UI Designer SEPT 2024 - SEPT 2025

- Ideating innovative and technical solutions for clients
- Conducting research and creating features with the collaboration of AI
- Collaboration with developers on completion of tasks and bugs

#### National University of Singapore / UI/UX Designer

School of Computing / Dec 2024 - May 2026 (Part-time)

- Owning the delivery of the Brain Care SG mobile app for elderly's brain health, from ideation to creation of design system and prototypes.
- Enhanced the Engage app and Cognify app for elderly.

#### Mercedes-Benz, Singapore / Graphic UI/UX Intern

Acentrik / SEP 2023 - MAY 2024

- Developed UI mock-ups for blockchain based product website.
- Identified and troubleshoot UX problems such as responsiveness.

#### Changi Airport Group / UI/UX Design Intern

Changi App / MAY 2023 - JUL 2023

- Incorporated a promo mechanism for event booking function on Changi App, supported the end-to-end design process including usability research for the feature and guerrilla interviews.
- Conducted discovery research for airports' baggage tracking.

#### Nanyang Technological University / Web Designer

NTU CAO / JAN 2023 - MAY 2023

- Developed the internship website for employers for the Career Guidance and Industry Collaboration (CAO) office.

#### Shopee / Graphic design Intern

ShopeePay, Regional Marketing / SEP 2022 - JAN 2023

- Created marketing collaterals such as banners and social media visuals.

#### Acecom Technologies / Graphic design

Graphic Designer + Design Intern / DEC 2021 - SEP 2022

- Conceptualised and executed campaigns and online store layouts for brands such as Tefal and De'Longhi across digital platforms.
